Education

1984 Doctoral degree in social science (Dr. rer. soc.), Ruhr-University of Bochum, Germany

1981 Staatsexamen Sek II in social sciences and physics, University of Cologne, Germany

Academic Affiliations

Since 2004 Adjunct Professor of Science Journalism, Free University of Berlin, Germany
- Institute for Media and Communication Studies

Since 1984 Social Scientist, Research Center Juelich, Germany
- Institute of Neuroscience and Medicine: Ethics in the Neurosciences (since 2009)
- Program Group Humans-Environment-Technology (1990-2008)
- Program Group Technology and Society (1984-1990)

Research

Research on public communication of science, technology and risk in the fields of nuclear power, genetic engineering, natural disasters, global climate change, and biomedicine:

- interface of science and media (interactions of scientists and journalists; public relations of science, online communication, scientific experts)
- reception and effects of media coverage of scientific issues by media audiences, political decision-makers and the research community (science governance, medialization of science, political use of scientific expertise)
- journalistic approaches in the reporting of risk
- public opinion and opinion formation on technological and environmental risk
- social contexts of the neurosciences
- cross-cultural studies of science communication.

Research grants: German Research Foundation (DFG), Federal Ministry of Education and Research, Volkswagen Foundation, European Commission, Rutgers University/U.S. Department of Agriculture.

International collaborations with colleagues in Europe, USA, Brazil, Israel and China.

Academic Teaching

Subjects:

- Science communication, science journalism, experts in the public sphere
- Environmental and risk communication
- Methods of empirical communication research

Regular courses at Free University of Berlin (since 2004), University of Dusseldorf (1998-2003) and University of Munster (1991-1999).

Author of written study units on *Scientists as public experts* (Open University, UK) and *Risk communication* (German Institute for Distant Learning, University of Tübingen).

Guest lectures at academic institutions in Germany, Switzerland, Netherlands, Denmark, UK, France, Spain, Portugal, USA, Canada, South Africa, South Korea, Taiwan and China.

Committees / Advisory Boards

Since 2019	Committee Non-Ionizing Radiation, German Commission on Radiological Protection
2016-2018	Commission "Artificial Photosynthesis", German Science Academies
Since 2012	Editorial Board " <i>Public Understanding of Science</i> "
2011-2013	Commission "Knowledge transfer and new media", German University Rectors' Conference (HRK)
Since 2007	Editorial Advisory Board " <i>Science Communication</i> "
Since 2002	Scientific Committee, International Network for the Public Communication of Science and Technology (PCST)
1997-2016	Scientific Advisory Council, German Committee for Disaster Reduction (DKKV)
1986-1988	Scientific Advisory Board "Technology acceptance and media effects", German Federal Ministry of Research and Technology (BMFT)

Outreach

Invited talks at events for communication practitioners (science journalists, public information officers, risk communicators), public administration, industry, labor unions, other organizations of the civil society, and the interested general public.

Media interviews with journalists from newspapers, magazines, radio and TV programs.

Organization of communication trainings for scientists at the Research Center Jülich since 1992; trainer in media workshops for scientists of the European Science Communicators Network (ESConet) on behalf of the European Commission (coordinated by University College London).

Organization of workshops fostering information exchange between communication researchers and communication practitioners (e.g. about disaster communication).
